

Preci-Tech India

Address: #207, Bhanu Enclave, Opp: ICICI Bank Beside Poulomi Hospital AS Rao Nagar, Hyderabad - 500062, Hyderabad Telangana India, 500062

Description: ABOUT PRECI-TECH - ALL ABOUT HEAT Backed by a 20 years of rich industry experience, We manufacture, supply and export a wide range of Steam Boilers, Incinerators, Synthetic Thermic Fluid Oil, Thermic Fluid Heaters, Hot Water Boilers, Hot Air Generators, Furnaces/Burners, Heating Systems and Burner & Conveyor System. We fabricate these products using qualitative raw material, which is procured from the recognized sources of the market. Catering to the needs of domestic as well as international markets, these products are widely appreciated for their sturdy construction, di...

Products:

Stationary Incinerator

Industrial Machinery and Equipment

We specialize in offering a qualitative range of Stationary Incinerators to our clients. These precision engineered systems can be customized as per the requirements and preferences of our clients. We also offer these incinerators with rotary furnaces. The entire range of rotary incinerators can be availed in an extensive variety including primary rotary chamber, secondary stationary chamber, dust collector, heat recovery system, smoke washer, id fan, chimney with FD fans and burners with auto control system. These hold a capacity ranging from 300kg/hr to 3000 kg/hr and are available at industry leading prices. Other details: Fuel used comprises of HSD [diesel], LDO, FO and other gases. Capacity ranges from 2 kg/hr to 2 ton/hr

Electrode Steam Boiler

Industrial Machinery and Equipment

Enriched with years of experience, we are engaged in manufacturing, supplying and exporting an extensive range of Electrode Steam Boilers. These boilers are made using best grade raw materials and sophisticated technologies, which make them more durable and provide longer serving life. Each product offered by our firm is well tested before offering to the clients to ensure that they are free from any defect and are reliable. Features: Reliable performance Easy to operate Longer serving life

Vertical Steam Boiler

Industrial Machinery and Equipment

We manufacture technically accurate steam boilers that are used in various industrial operations. Our vertical steam boilers are very much in demand owing to their easy maintenance and convenient outlets. Features: The capacity of the boiler is 30kg/hr to 15000 kg/hr. It can handle pressure upto 10.54 kg/cm² and 17 kg/cm². Fuel used comprises of wood, coal, lignite, diesel, ldo, fo, bio-mass, husk, bio gas, pet-cook fired, electrical boiler.

Electric Boilers

Industrial Machinery and Equipment

With the assistance of our experienced engineers, we are able to fabricate a high quality range

of Electric Boilers. We use high-grade raw material to fabricate these boilers, with the help of advanced technical equipment. Catering to the needs of various industries, we offer the entire range as per the requirements of our clients. Ensuring its compliance with the international quality standards, our quality analysts conduct rigorous quality checks at every stage of production.

Gas Fired Boiler

Industrial Machinery and Equipment

With the assistance of our skilled professionals, we are able to offer a high quality range of Gas Fired Boilers. These boilers are fabricated using superior grade raw material, which is procured from the reliable vendors of the market. Assuring easy operations and efficient functions, the entire range of these boilers cater to the needs of both domestic as well as international markets.

Wood Fired Thermic Fluid Heater

Industrial Machinery and Equipment

An extensive range of Wood Fired Thermic Fluid Heaters can also be availed from us. These heaters are equipped with advanced technology methods and superior quality materials. We have sourced the materials for manufacturing these heaters from some of the reliable and authentic vendors of the industry. Moreover, our range is accredited for their reliable performance, easy operations and less power consumption. Features: Optimum quality Less maintenance Abrasion resistant

FO Fired Thermic Fluid Heater

Industrial Machinery and Equipment

We are among the eminent names in industry, involved in manufacturing, supplying and exporting a wide range of FO Fired Thermic Fluid Heaters. These heaters are manufactured in accordance with the international quality standards and norms. We have designed and developed our exclusive range in various specifications as per the clients' diverse requirements. We offer our range at most economic rates in market. Features: Durable Excellent performance Economic rates

Hot water & Air Generator

Industrial Machinery and Equipment

We supply hot air generator & hot water generator of different capacity using different fuels. This Product line includes: 1) Diesel Fired Hot Air Generator 2) FBC Direct Fired Hot Air Generator 3) FBC Indirect Fired Hot Air Generator 4) Horizontal Hot Water Generator
